

East Muskingum Schools COVID Protocol

Students and staff that test positive for COVID-19 will stay home for at least 5 days and isolate themselves from others in your home. Positive individuals are likely most infectious during these first 5 days.

Wear a high-quality mask when you must be around others at home and in public.

- If after **5 days** you are fever-free for 24 hours without the use of medication, and your symptoms are improving, or you never had symptoms, you may end isolation after day 5.
- Regardless of when you end isolation, avoid being around people who are more likely to get very sick from COVID-19 until at least **day 11**.
- You should wear a high-quality mask through **day 10**.
